Miller AirCore Front D-Ring Harness

Miller AirCore Front D-ring Harness

Overview

Feedback

FOR USE IN CLIMBING & CONFINED SPACES

The Miller AirCore™ Harness was specially designed for the most demanding applications of professional users. Now available with a front D-ring: the harness is perfect for ladder climbing: descent or rescue positioning tasks: improving comfort: safety and productivity on the jobsite.

Durable

The AirCore™ harness is built with strong: lightweight webbing and a front D-ring that is highly corrosion-resistant: yet not stiff or coarse.

Ergonomic Design

Its contoured design minimizes contact around a worker's neck: lower back: and inner thighs to reduce chafing and improve comfort.

Features & Benefits:

Comfortable

- Open-core padding technology for softness: breathability: and moisture control
- Up to 16% less surface area than other padding used on the market
- The patented Miller DuraFlex® stretchable webbing maintains comfort at all times without compromising on mobility

Mobility

- Unique cam buckles on the shoulder straps ensures vertical comfort
- Quick-connect chest buckles provide easy donning and doffing
- 16% lighter in weight than competitive harnesses with aluminum hardware
- 20% lighter than harnesses with steel hardware
